

Create and Edit Additional Dial By Name Directories

Use this page when creating a new dial by name directory or editing an existing dial by name directory from **Configuration > Additional Dial By Name Directories**.

The form screenshots below are separated by block where the application exposes separate sections. Complete the required values, review routing or destination references, and save the record.

Additional Dial By Name Directories add/edit form.

Saving and deleting

Task	How to do it
Create	Select the new action from the Additional Dial By Name Directories list, fill the required fields, and select Save.
Edit	Open the existing dial by name directory, update the needed fields, and select Save.
Delete	Before deleting a dial by name directory, check call-flow, destination, schedule, report, provisioning, or integration references. Use the row delete action or the form delete action when available, then confirm.
