

Create and Edit Feature Codes

Use this page when creating a new feature code or editing an existing feature code from **Configuration > Feature Codes**.

The form screenshots below are separated by block where the application exposes separate sections. Complete the required values, review routing or destination references, and save the record.

Add and edit form

Information

Code:

Comment:

Destination:

Feature Codes add/edit form.

Main fields

Field	Description
Code:	Dialed value, identifier, or matching value used by the PBX.
Comment:	Administrative note shown in lists and reports.

Saving and deleting

Task	How to do it
Create	Select the new action from the Feature Codes list, fill the required fields, and select Save.
Edit	Open the existing feature code, update the needed fields, and select Save.
Delete	Before deleting a feature code, check call-flow, destination, schedule, report, provisioning, or integration references. Use the row delete action or the form delete action when available, then confirm.
