Fields

Field or option	Description
Name	Display name used in condition lists and selectors.

Field or option	Description
Type	Select Date - exact match.
Timezone	Timezone used to evaluate the date.
Date	Exact date or date/time value to match.
Recurring	Treats the date as recurring instead of a one-time date.

Example

Field	Example value
Name	Docs Condition - Date - Exact Match
Date	2026-12-25 00:00:00

Destinations

For tenant conditions, select the destinations that should run when the condition matches and when it does not match. Global conditions are referenced by tenant-level Use a Global Condition records.

Editing and deleting

To edit this condition, open **Docs Condition - Date - exact match** from the Conditions list, adjust the fields, and select **Save**. Before deleting it, check IVRs, schedules, routes, feature codes, and other call-flow objects that may reference it.
