

Date - greater than date

The **Date - greater than date** type matches when the current date/time is later than the configured date/time.

Open **Configuration > Conditions**, select **New Condition**, enter a name, choose **Date - greater than date** in the Type field, complete the type-specific fields, and select **Save**.

The screenshot shows a configuration form for a 'Date - greater than date' condition. The form is titled 'Information' and contains the following fields and options:

- Name:** Docs Condition - Date - greater than date
- Type:** Date - greater than date
- Timezone:** Use tenant default (with a clock icon and time 15:51:19)
- Greater than Date:** 2026-01-01 00:00:00 (with checkboxes for Recurring and Custom)
- Destination when matches:** Please select condition destination
- Destination when NOT matches:** Please select condition destination

At the bottom of the form are three buttons: **Save** (blue), **Delete** (red), and **Back** (grey).

Date - greater than date condition edit form in the Canistracci OIL tenant.

Fields

Field or option	Description
Name	Display name used in condition lists and selectors.
Type	Select Date - greater than date.
Greater than Date	Date or date/time threshold used by the comparison.
Recurring	Treats the threshold as a recurring date value.
Custom	Uses a custom date expression instead of the date picker value.

Example

Field	Example value
Name	Docs Condition - Date - Greater Than Date
Greater than Date	2026-01-01 00:00:00

Destinations

For tenant conditions, select the destinations that should run when the condition matches and when it does not match. Global conditions are referenced by tenant-level Use a Global Condition records.

Editing and deleting

To edit this condition, open **Docs Condition - Date - greater than date** from the Conditions list, adjust the fields, and select **Save**. Before deleting it, check IVRs, schedules, routes, feature codes, and other call-flow objects that may reference it.
