Fields

Field or option	Description
Name	Display name used in condition lists and selectors.
Type	Select Date - lesser than date.
Lesser than Date	Date or date/time threshold used by the comparison.
Recurring	Treats the threshold as a recurring date value.
Custom	Uses a custom date expression instead of the date picker value.

Example

Field	Example value
Name	Docs Condition - Date - Lesser Than Date
Lesser than Date	2026-12-31 23:59:59

Destinations

For tenant conditions, select the destinations that should run when the condition matches and when it does not match. Global conditions are referenced by tenant-level Use a Global Condition records.

Editing and deleting

To edit this condition, open **Docs Condition - Date - lesser than date** from the Conditions list, adjust the fields, and select **Save**. Before deleting it, check IVRs, schedules, routes, feature codes, and other call-flow objects that may reference it.
