

# Day of the month

The **Day of the month** type matches a specific month day number in the month.

Open **Configuration > Conditions**, select **New Condition**, enter a name, choose **Day of the month** in the Type field, complete the type-specific fields, and select **Save**.

The screenshot shows a configuration form for a 'Day of the month' condition. The form is titled 'Information' and contains the following fields:

- Name: Docs Condition - Day of the month
- Type: Day of the month (dropdown menu)
- Timezone: Use tenant default (dropdown menu) with a clock icon and the time 15:51:22
- Day of the month: 15 (dropdown menu)
- Destination when matches: Please select condition destination (dropdown menu)
- Destination when NOT matches: Please select condition destination (dropdown menu)

At the bottom of the form are three buttons: 'Save' (blue), 'Delete' (red), and 'Back' (grey).

Day of the month condition edit form in the Canistracci OIL tenant.

## Fields

Field or option	Description
Name	Display name used in condition lists and selectors.
Type	Select Day of the month.
Timezone	Timezone used to evaluate the month day.
Day of the month	Day number from 1 to 31.

## Example

Field	Example value
Name	Docs Condition - Day of the Month
Day of the month	15

# Destinations

For tenant conditions, select the destinations that should run when the condition matches and when it does not match. Global conditions are referenced by tenant-level Use a Global Condition records.

# Editing and deleting

To edit this condition, open **Docs Condition - Day of the month** from the Conditions list, adjust the fields, and select **Save**. Before deleting it, check IVRs, schedules, routes, feature codes, and other call-flow objects that may reference it.
