

Overview

The **Call Privacy** page configures caller ID screening actions such as allow, deny, or no-answer behavior. Open it from **Configuration > Settings > Call Privacy**.

The page works against the tenant currently selected in the top bar. The screenshots and demo rows were captured in the **Canistracci OIL** tenant.

CallerID <small>▲</small>	Action	Last seen
<input type="text" value=""/>	<input type="text" value=""/>	<input type="text" value=""/>
+15559011	allow	0000-00-00 00:00:00
+15559012	deny	0000-00-00 00:00:00

Call Privacy list page in the Canistracci OIL tenant.

Working with objects

Task	How to do it
Add	Use the grid add control to create a new call privacy rule. Fill the row editor and save it.
Edit	Select an existing call privacy rule row and use the grid edit control. Save the edited row.
Delete	Select one or more call privacy rule rows and use the grid delete control, then confirm.

List columns

Column	Description
CallerID	Caller ID or caller matching value.
Action	Object setting shown by the form.
Last seen	Object setting shown by the form.

Demo records

The tenant contains 2 documentation demo records for this page: +15559011 and +15559012.

Deleting records

Before deleting a call privacy rule, check references from call flows, destinations, schedules, reports, or provisioning objects. MiRTA PBX asks for confirmation before the delete is submitted.
