

# Overview

The **Settings** page edits tenant-wide dialing, recording, AI, fax, API, destination, security, and call settings. Open it from **Configuration > Settings**.

The page works against the tenant currently selected in the top bar. The screenshots and demo rows were captured in the **Canistracci OIL** tenant.

Settings -

Recover VM messages dialing your own same number:	No
When recovering your same number VM, prompt for password:	Yes
