

Overview

The **XML Templates** page stores reusable XML output templates for report or integration data. Open it from **Configuration > Settings > XML Templates**.

The page works against the tenant currently selected in the top bar. The screenshots and demo rows were captured in the **Canistracci OIL** tenant.

XML Templates list page in the Canistracci OIL tenant.

Working with objects

Task	How to do it
Add	Select the New XML template action, complete the form, and select Save.
Edit	Open the XML template from the list by selecting its name, number, or row action. Change the form and select Save.
Delete	Select the row checkbox and use Delete Selected, or open the XML template and select Delete, then confirm.

Page functions

Action	Description
New XML Template	Opens the creation form for a new xml template.
Delete Selected	Deletes the selected rows after confirmation.

List columns

Column	Description
Name	Display name used in lists and references.
Description	Administrative note shown in lists and reports.

Demo records

The tenant contains 1 documentation demo record for this page: Docs Demo XML 1.

Deleting records

Before deleting a XML template, check references from call flows, destinations, schedules, reports, or provisioning objects. MiRTA PBX asks for confirmation before the delete is submitted.
