

Overview

The **AGI Scripts** page registers AGI script definitions that can be used by routing objects and call-flow actions. Open it from **Configuration > AGI Scripts**.

The page works against the tenant currently selected in the top bar. The screenshots and demo rows were captured in the **Canistracci OIL** tenant.

Name	Path	Parameters	Param. 1	Param. 2	Param. 3	Param. 4	Param. 5
Docs Demo AGI 1	/var/lib/asterisk/agi-bin/docs-demo-1.agi	0					

AGI Scripts list page in the Canistracci OIL tenant.

Working with objects

Task	How to do it
Add	Select the New AGI script action, complete the form, and select Save.
Edit	Open the AGI script from the list by selecting its name, number, or row action. Change the form and select Save.
Delete	Select the row checkbox and use Delete Selected, or open the AGI script and select Delete, then confirm.

List columns

Column	Description
Name	Display name used in lists and references.
Path	Object setting shown by the form.
Parameters	Object setting shown by the form.
Param. 1	Object setting shown by the form.
Param. 2	Object setting shown by the form.
Param. 3	Object setting shown by the form.
Param. 4	Object setting shown by the form.
Param. 5	Object setting shown by the form.

Demo records

The tenant contains 1 documentation demo record for this page: Docs Demo AGI 1.

Deleting records

Before deleting a AGI script, check references from call flows, destinations, schedules, reports, or provisioning objects. MiRTA PBX asks for confirmation before the delete is submitted.
