

Overview

The **Feature Codes** page maps dialable feature codes to PBX functions or feature-code destinations. Open it from **Configuration > Feature Codes**.

The page works against the tenant currently selected in the top bar. The screenshots and demo rows were captured in the **Canistracci OIL** tenant.

Feature Codes list page in the Canistracci OIL tenant.

Working with objects

Task	How to do it
Add	Select the New feature code action, complete the form, and select Save.
Edit	Open the feature code from the list by selecting its name, number, or row action. Change the form and select Save.
Delete	Select the row checkbox and use Delete Selected, or open the feature code and select Delete, then confirm.

Page functions

Action	Description
New Feature	Opens the creation form for a new feature.
Map Features	Opens a related mapping page.
Dynamic Features	Runs the Dynamic Features action.
Delete Selected	Deletes the selected rows after confirmation.

List columns

Column	Description
Code	Dialed value, identifier, or matching value used by the PBX.
Comment	Administrative note shown in lists and reports.
Action	Object setting shown by the form.

Demo records

The tenant contains 2 documentation demo records for this page: Docs Demo Feature 1 and Docs Demo Feature 2.

Deleting records

Before deleting a feature code, check references from call flows, destinations, schedules, reports, or provisioning objects. MiRTA PBX asks for confirmation before the delete is submitted.
