

# Overview

The **Manage CNAM Cache** page stores manually entered or cached caller-name lookup results. Open it from **Configuration > Settings > Manage CNAM Cache**.

The page works against the tenant currently selected in the top bar. The screenshots and demo rows were captured in the **Canistracci OIL** tenant.

Manage CNAM Cache list page in the Canistracci OIL tenant.

## Working with objects

Task	How to do it
Add	Use the grid add control to create a new CNAM cache entry. Fill the row editor and save it.
Edit	Select an existing CNAM cache entry row and use the grid edit control. Save the edited row.
Delete	Select one or more CNAM cache entry rows and use the grid delete control, then confirm.

# List columns

Column	Description
Number	Dialed value, identifier, or matching value used by the PBX.
Name	Display name used in lists and references.
Inserted	Object setting shown by the form.
Static	Object setting shown by the form.
Note	Administrative note shown in lists and reports.

# Demo records

The tenant contains 2 documentation demo records for this page: Docs Demo CNAM 1 and Docs Demo CNAM 2.

# Deleting records

Before deleting a CNAM cache entry, check references from call flows, destinations, schedules, reports, or provisioning objects. MiRTA PBX asks for confirmation before the delete is submitted.
