

SIP Header

The **SIP Header** type matches a SIP header against a regular expression.

Open **Configuration > Conditions**, select **New Condition**, enter a name, choose **SIP Header** in the Type field, complete the type-specific fields, and select **Save**.

Information

Name: Docs Condition - SIP Header

Type: SIP Header

SIP Header: X-Account

Regular Expression: Accounting

Destination when matches: Please select condition destination

Destination when NOT matches: Please select condition destination

Save

Delete

Back

SIP Header condition edit form in the Canistracci OIL tenant.

Fields

Field or option	Description
Name	Display name used in condition lists and selectors.
Type	Select SIP Header.
SIP Header	Header name to inspect.
Regular Expression	Expression used to match the header value.

Example

Field	Example value
Name	Docs Condition - SIP Header
SIP Header	X-Account
Regular Expression	Accounting

Destinations

For tenant conditions, select the destinations that should run when the condition matches and when it does not match. Global conditions are referenced by tenant-level Use a Global Condition records.

Editing and deleting

To edit this condition, open **Docs Condition - SIP Header** from the Conditions list, adjust the fields, and select **Save**. Before deleting it, check IVRs, schedules, routes, feature codes, and other call-flow objects that may reference it.
