

Weekday

The **Weekday** type matches selected days of the week.

Open **Configuration > Conditions**, select **New Condition**, enter a name, choose **Weekday** in the Type field, complete the type-specific fields, and select **Save**.

The screenshot shows a form titled "Information" for editing a "Weekday" condition. The form contains the following fields and options:

- Name:** Docs Condition - Weekday
- Type:** Weekday (dropdown menu)
- Timezone:** Use tenant default (dropdown menu) with a clock icon and the time 15:51:13.
- Days of the week:** A list of checkboxes for Sunday, Monday, Tuesday, Wednesday, Thursday, Friday, and Saturday. Monday through Friday are checked.
- Destination when matches:** Please select condition destination (dropdown menu)
- Destination when NOT matches:** Please select condition destination (dropdown menu)
- Buttons:** Save (blue), Delete (red), and Back (grey).

Weekday condition edit form in the Canistracci OIL tenant.

Fields

Field or option	Description
Name	Display name used in condition lists and selectors.
Type	Select Weekday.

Field or option	Description
Timezone	Timezone used to determine the current weekday.
Sunday through Saturday	Checkboxes for the days that should match.

Example

Field	Example value
Name	Docs Condition - Weekday
Days	Monday through Friday

Destinations

For tenant conditions, select the destinations that should run when the condition matches and when it does not match. Global conditions are referenced by tenant-level Use a Global Condition records.

Editing and deleting

To edit this condition, open **Docs Condition - Weekday** from the Conditions list, adjust the fields, and select **Save**. Before deleting it, check IVRs, schedules, routes, feature codes, and other call-flow objects that may reference it.
